By the order Second Lieutenants Raymond C. Baird and Herbert L. ## YUMA COUNTY FAIR LAST WEEK OCTOBER

(By B. F. Fly.)

Yuma county is to have a county fair the last week in October.

That much can now be stated as a certainty. In addition, Yuma county will be appropriately represented at the Phoenix State Fair the first week in November, and if we don't win a fair share of the prizes at the State Fair it won't be because of lack of effort on the part of Nels Lind, the new Yuma county fair commissioner. That much has also been stated as a fact.

A couple of weeks ago the board of supervisors appropriated the sum of five hundred dollars for the purpose of making an exhibit at the State Fair, and Nels Lind was selected as the county fair commissioner. He at once began to make inquiries of the farmers as to what they would do in the way of furnishing exhibits. There was no enthusiasm. As a matter of fact many heretofore liberal exhibitors refused to take any part in the approaching event, but practically all of them expressed a desire for a county fair. This appealed very strongly to Mr. Lind. The question was as to where the products of the county could be displayed in Yuma. There was but one available place—the big store building of E. F. Sanguinetti on the east side of Main street at the corner of Second. It was not thought possible that this handsome building could be procured, but when I called on Mr. Sanguinetti and when I explained the matter to him he was the most enthusiastic man in Yuma county for the Yuma County Fair, and very promptly offered his big building, free of all cost, for the use.

That settled the whole question. The County Fair will be held at the above designated place, and from now until the time for the fair to open Mr. Lind will leave nothing undone to make it the best county fair ever held in the state. And the beauty of the whole thing is that the very best of everything exhibited will be taken to the State Fair just as soon as the County Fair shall have closed its doors. The idea is a good one and should be received with real enthusiasm.

## SECOND PHASE OF GREAT WAR BATTLE NOW ON

**ALLIES STILL MAKING GAINS; THE FRENCH ARE GREATLY PLEASED WITH THEIR SUCCESSES AND HOLD POSITIONS AKEN.**

**RUSSIANS ON THE NORTH FRONT ARE ALSO SUCCESSFUL AND APPEAR TO BE PLENTIFULLY SUPPLIED WITH AMMUNITION.**

(By Associated Press)

LONDON, July 7.—The second phase of the great battle on the western front was begun when the allied nations' artillery advanced to new positions and started hammering the German defenses, the British long range guns shelling German positions and roads in the rear. The allied offensive compelled the Germans to withdraw their forces from the Verdun attack, thus obtaining some promise of relief for the valiant defenders after five months of constant bombardment.

The Russians on the eastern front are passing from one phase to another without intermission. The Russians are apparently better equipped with guns and ammunition than at the beginning of the war. Gen. Letchitzky's army after conquering Bukovina and cutting railway communications with Delatyn and Korosmezo, are advancing in an attempt to overwhelm the Austrians. There is an intense bombardment in progress on the entire northern front.
